

## Datasheet: M2M Mobile Services

The M2M Mobile Services provide highly secure and reliable access for com.tom devices to the com.tom standard and customer-specific portals via mobile radio.

A flexible price plan structure supports all sorts of applications with different requirements regarding data allowance or country coverage.

### Features

- » Uses the Vodafone D2 mobile radio network
- » Authentication with individual credentials
- » Encryption of traffic
- » Plans with different monthly data allowances
- » Change of plan at any time
- » Billing unit: 1 kbyte
- » Term of contract: 48 months
